

## Corporate Water Stewardship Policy

At Trans-Oil Group of Companies, we recognize the critical importance of water as a finite and essential resource for all life and ecosystems. As a responsible corporate citizen, we are committed to practicing efficient water management and ensuring the sustainability of this invaluable resource.

Therefore, we hereby declare our Water Stewardship Policy as follows:

- Water Conservation:** We are dedicated to reducing our water consumption by implementing innovative technologies, processes, and practices to minimize water usage across all our operations.
- Environmental Protection:** We pledge to protect water quality by preventing pollution, minimizing wastewater discharges, and ensuring compliance with all relevant environmental regulations and standards.
- Sustainable Practices:** We will work towards implementing sustainable water management practices, including responsible sourcing, recycling, and reusing water resources wherever feasible within our operations.
- Collaboration and Engagement:** We will actively engage and collaborate with stakeholders, local communities, governments, and non-governmental organizations to promote water conservation, education, and awareness.
- Continuous Improvement:** We are committed to regularly reviewing and improving our water management strategies, setting measurable goals, and transparently reporting on our progress towards achieving these objectives.
- Risk Mitigation:** We will identify and mitigate potential water-related risks to our business operations and supply chain, ensuring resilience in the face of water scarcity or other water-related challenges.
- Innovation and Research:** We will support research and development initiatives aimed at finding innovative solutions for sustainable water use, promoting efficiency, and reducing our overall water footprint.

Trans-Oil Group of Companies acknowledges that responsible water stewardship is fundamental to our business success, environmental conservation, and the well-being of the communities in which we operate. We are committed to upholding this policy, integrating it into our business practices, and fostering a culture of water conservation and sustainability.

This policy statement represents our commitment to being a responsible steward of water resources and is endorsed by our executive leadership. Responsibility for the successful implementation of this policy belongs to every Trans-Oil Group of Companies employee at each level and function within the Company.
